While every effort is made to ensure exact colour and design reproduction, we cannot, owing to method of manufacture, guarantee perfect matching. Please note that a sample may not be from the same dye batch as the current production and therefore should be used as a guide and not as an exact colour match.

Shading is a characteristic of all cut pile carpets and is not considered to be a manufacturing defect. Shades may vary from dye lot to dye lot. Experienced professional installers are essential to ensure correct installation.
